

# HP ProLiant Servers

NTT AMERICA MANAGED HOSTING

**The power of HP with the expertise of NTT America Data Center Services**

## MANAGED HP PROLIANT SERVERS FROM NTT AMERICA

NTT America has forged a strong relationship with Hewlett-Packard, one of the industry's most respected technology solution providers, as part of our strategy to provide the most resilient and performance focused solutions available.

HP's ProLiant server solutions offer the performance and reliability of multi-core processors and Serial Attached SCSI (SAS) storage as standard architectures on most servers.

## WHY HP PROLIANT SERVERS?

- Certified to operate with both Microsoft Windows Server and Linux operating systems

- Linux options include Red Hat, CentOS, Debian, and Ubuntu operating systems
- Flexible options for Windows Server 2008 and 2008 R2 depending on the server role chosen
- Standard pre-installed software and applications for all Linux Operating systems
- All NTT America HP ProLiant Servers can be configured to meet your business requirements

NTT America offers three HP ProLiant Server packages that can be customized according to your requirements.

## MOVING FORWARD
