

Network Attached Storage

NTT AMERICA MANAGED STORAGE

With the ever-increasing growth of unstructured data, Network Attached Storage (NAS) is a key element in accommodating changing storage requirements and ensuring business continuity.

NTT America has worked with Hitachi Data Systems, one of the industry's most respected storage providers, as part of our strategy to deliver the most resilient and performance focused solutions available.

Flexible and Scalable Storage Solutions

NETWORK ATTACHED STORAGE FROM NTT AMERICA

NTT America's managed NAS service combines the state-of-the-art storage technology from Hitachi, with NTT America's management expertise to provide a flexible, scalable and secure high performance storage capability.

NAS is ideal for storage of unstructured content such as electronic assets, digital documents, medical images and rich media.

MANAGED NAS OPTIONS

	Standard	Advanced
Protocols supported	CIFS	CIFS, NFS
Supported OS	Windows, Linux	Windows, Linux
Supported Drives	SAS, SATA	SAS, SATA
Minimum capacity	32GB	512GB

Customer Portal	Capacity figures	Capacity & performance figures

WHY NTT AMERICA'S NAS SERVICE?

- Two service options give customers greater flexibility and choice
- The choice of SAS or SATA drives means customers can match the solution to their needs
- Monthly billing means there is no capital investment by the customer
- NTT America manages end to end storage infrastructure and associated services
- Rapid provisioning of additional capacity
- Multiple Security measures including data isolation, authentication and added Layer 2/3 network security
- The NTT America Customer Portal gives a real time view of the performance of the service
- Availability SLA of 99.99%
